

# Product Program

We just unveiled the payout for the new product program and WOW!! My phone has been ringing off the wall. Everyone is excited and for good reason. The product program is a real money maker. Our company is in the membership business, not in the product business, which allows us to keep the prices of our products lower, yet still have one of the highest payouts in the industry. The compensation plan is clearly explained in the new Details of the Comp DVD , so get a copy and see what all the excitement is about.

I've been asked to show some examples of what you would earn with a certain number of your team on auto ship. . I use \$100 per month as an example, because that is what a husband and wife would spend if they were on just a couple of the nutritional products each. For instance, TN Fruit, TN Veggies and TN Taste (TNT). That combination is great, because TN Fruit and TN Veggies are good for everyone, and the feedback from the sales field is that TN Taste (TNT) is helping people lose weight, have more energy, sleep better, etc. Try it, I know you'll like it.

Here are a few examples using that and duplicating it through your team. Keep in mind, that each person you host is a separate hosting line. If you have hosted 20 people, you have twenty hosting lines, even if they are all in only one or two lines of your business. If you had three of your hosting lines, (does not have to be personally hosted, anyone in the hosting lineage will count) that were on auto ship for \$100 of our nutritional products monthly, and they had three of their hosting lines doing the same, and they had three also; this would be a total of only 40 people including you. Your commissions would be over \$300 per month. Taking that down just one more level, would increase your monthly commissions to over \$1100! That's only a total of 120 people. Many people reach that by the time they reach Presidential or Bronze.!

Each person you host starts a new hosting line. The more you host and duplicate, the bigger the check. Using the same example, but now hosting 5 instead of 3. Duplicating it the same way would change the numbers considerably. Also 5, that host 5, that host 5, would be 156 people on auto ship instead of 40. This would make your commission over \$1,200 per month, while taking that down just one level deeper, would put your monthly commissions over \$6200!!!!

The bottom line is, as you build your Team National business, share the products with your new IMDs and you could create a strong residual stream of income along the way. Our products are among the highest quality in the industry, priced better than any of the competition, along with one of the highest payouts in the industry. It just doesn't get much better than that.

Please note that features from the previous product program will not be available in the new Product Program. These features such as 12 month free and point counts had to be discontinued in order to create a more exciting product program.
